OSHA'S

TOP TEN

IN 2023

KEEP SAFETY FIRST

According to the U.S. Department of Labor, more than 4,500 workers are killed on the job, and 3 million are per year. OSHA regulations work to prevent these injuries. Effectively communicating hazards with proper identification and lockout devices is considered the first line of defense.

Here are the top 10 most frequently cited OSHA standards for the Fiscal Year 2023*:

**NSC, "OSHA Reveals Top 10 Safety Violations.."*
