

Custom Accu-Detect™ Metal-Detectable Labels

Ideal for use in food and beverage facilities or any location where possible contamination is a concern.

- Heavy-Duty durable film with infused metal for detectability
- Strong, permanent adhesive adheres to metal or plastic with smooth, textured, or uneven surfaces
- Designed to resist peeling and delamination and withstands high-pressure and chemical washdowns.
- Can be detected by stationary and/or handheld metal detectors*
- Service Temperature Range: -40°F to 302°F (-40°C to 150°C)

* We recommend testing product with your equipment to ensure detectability.
