# Material Matters

When choosing shadow board materials, consider durability and weight capacity to ensure long-term performance and support for your tools, alongside visual appeal and compatibility with your specific environment to align with facility aesthetics and conditions. Additionally, prioritize low-maintenance options to simplify upkeep and preserve functionality over time.

## General Use

### Ultra Aluma-Lite™

- Ideal choice for Mobile Shadow Boards
- Anti-Static Properties: Suitable for Electrical Power Plants

### Max-Duty Aluminum™

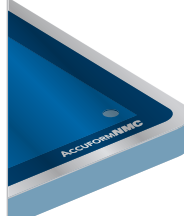

- Chemical abrasion, and impact resistant for harsh environments
- Sign Muscle™ protects from UV fading and graffiti
- Temperature Range: -40° to 250°F

## Specialized Environments

### Accu-Shield™

- High-performance two-ply polycarbonate plastic
- UV Stable and Stain Resistant
- Temperature Range: -60° to 260°F

### FBX Accu-Shield™

- Gloss finish, safe for contact with foods in accordance with Food & Drugs 21 CFR 174.5(d)
- Stainless-steel hooks
- Temperature Range: -60° to 212°F

Use Case	Recommended Material	Key Features
<b>Light Manufacturing</b> Warehouses, Distribution Centers, Janitorial	<b>Aluma-Lite™</b>	<ul style="list-style-type: none"> <li>• Most cost effective</li> <li>• Standard thickness for small, light-duty boards</li> </ul>
<b>Light Manufacturing</b> Warehouses, Distribution Centers, Janitorial	<b>Ultra Aluma-Lite™</b>	<ul style="list-style-type: none"> <li>• Light weight while maintaining strength for larger scale boards</li> <li>• Double the thickness of standard Aluma-Lite for enhanced durability to hold heavy equipment without bowing</li> </ul>
<b>Heavy Duty Industrial</b> Construction, Automotive, Agricultural	<b>Max Duty Aluminum</b>	<ul style="list-style-type: none"> <li>• Strength of metal but never rusts</li> <li>• Endures rough handling and heavy tools</li> </ul>
<b>Harsh Chemical Exposure</b> Chemical Plants, Oil & Gas, Water and Sewage, Corporate	<b>Accu-Shield™</b>	<ul style="list-style-type: none"> <li>• Withstands chemical contact and corrosion</li> <li>• Non-glare matte finish with subsurface print images</li> </ul>
<b>Extreme Temp &amp; Washdown</b> Food & Beverage, Laboratories, Medical, Hospitality	<b>FBX Accu-Shield™</b>	<ul style="list-style-type: none"> <li>• Safe for food, pharmaceutical, and laboratory environments</li> <li>• Protected sub-surface print on the underside</li> </ul>
<b>Heavy Duty Industrial</b> Construction, General Manufacturing	<b>Galvanized Steel</b>	<ul style="list-style-type: none"> <li>• Works with magnetic mounting and labels/accessories</li> <li>• Easy to clean due to zinc coated non-porous surface</li> </ul>

# CUSTOMIZE IT! in 4 Easy Steps

Contact us with the information in the steps below for a quick and easy quote on your custom shadow board.

## STEP 1

Choose Your Material

- **Aluma-Lite™ (ACP)**  **General Use**
- **Aluminum Industrial Grade** 
- **Accu-Shield™**
- **Accu-Shield™ FBX** **Food & Medical Grade**
- **See Page 2 for More Options**

## STEP 2

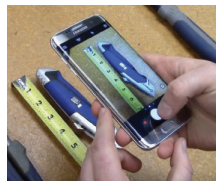

Measure

Determine mounting placements and provide desired board measurements that will fit the space and allow for easy installation.

## STEP 3

Tell Us About Your Tools

### Option 1

Take a clear, straight up picture of each tool next to a ruler. Provide us with a general overview of the estimated size of the board need.

*Kobalt 3-Blade Utility Knife  
Item #365654 Model # 55908*

### Option 2

Provide a list of tools along with their manufacturer, part number, and description.

## STEP 4

Provide Us With

### Your Logo

High res/vector art

### Your Colors

Background, shadow, font colors

### Your Message

Tool names, part numbers, department

Have questions about materials and environments? Contact us today!

## Clean & Sweep Shadow Boards & Combo Kits

Perfect for janitorial staff, facility managers, and maintenance teams, Clean & Sweep Shadow Boards support efficient sweeping and debris removal in industries such as manufacturing, warehousing, healthcare, and education. These boards ensure tools are organized, accessible, and ready at the point of need, helping maintain clean, safe environments.

- Ideal for non-food contact areas and general maintenance
- 68"H x 30"W for compact tool storage
- All necessary mounting hardware included
- Mobile cart option available for enhanced flexibility

### Combo Kit Includes:

- 1 Handheld Dust Pan
- 1 Upright Dust Pan
- 1 60" Push Broom Handle
- 1 24" Push Broom Head
- 1 Brush
- 1 Angle Broom

## Clean & Mop Shadow Boards & Combo Kits

An excellent solution for janitorial staff, facility managers, and maintenance teams responsible for clean, safe environments. Designed for mopping across industries like healthcare, manufacturing, education, and hospitality. Keeping tools organized boosts efficiency, reduces downtime, and supports quick spill response.

- Perfect for efficiently addressing typical spills and cleaning
- 68"H x 30"W, providing efficient tool organization
- Includes zinc-plated hardware and clear assembly instructions
- Mobile cart option for easy transport

# Mobile Cart Solutions

Mobile carts provide 5S compliance and communication where it's needed most. They are a maneuverable solution that effectively supports the organization of cleaning equipment, tools and more within the workplace, in addition to delivering point-of-need communication.

Available in three sizes, the anodized aluminum frame with casters allows mounted KPI boards and shadow boards (stock or custom), to move from workspace to workspace.

- Three popular cart sizes: PSB200 fits our Clean & Sweep/Mop Shadow Boards, as well as our Wet & Dry Zone Cleaning Station Shadow Boards
- 4 swivel, locking casters; zinc-plated steel housing
- 2" diameter rubber coated wheels
- Some assembly required; instructions and assembly hardware included
- Custom boards can be designed to fit mobile carts

No.	Size
PSB200	68" x 30"
PSB201	72" x 36"
PSB202	72" x 48"

# Boost Hygiene, Efficiency & Safety with Color-Coded Tools

Upgrade your workspace with durable, high-performance color-coded tools made from FDA-approved materials and ISO-certified for safety. Designed for environments where hygiene and efficiency are critical, these tools feature solid polypropylene blocks and polyester/PET bristles secured with stainless-steel staples for long-lasting use. Pair them with AccuformNMC's adhesive vinyl shadow shapes to keep workspaces organized and tools in place.

## Key Benefits:

- FDA & ISO-Certified – Safe for hygienic-critical environments
- Ultra-Durable – Solid polypropylene and stainless steel construction
- Color-Coded and Customizable - Customize your own collection of tools for specific uses and color-coded combinations
- 5S-Compliant – Supports Sort, Set in Order, Shine
- Shadow Shapes Available – Keep tools visible, organized, and accessible

# Key Performance Indicator (KPI) Boards

KPI Boards are an important tool for communication, learning and performance. They enhance understanding and engagement in various contexts.

Inform employees about Key Performance Indicators (KPIs) such as production and quality targets, schedules and operational progress or challenges.

They can also be used to support 5S Lean/Kaizen activities. These Dry-erase boards provide a quick and easy way to update metrics and messages throughout the day, month or quarter.

- Team Focus: Ideal for daily stand-ups, production floors, sales teams, or operations centers
- Visibility: Place in a high-traffic area (e.g., office wall, factory floor)
- Collaboration: Designed for team interaction and markups, notes, and adjustments

Dry-erase

*CUSTOMIZE IT!*

## Ultra Aluma-Lite™

Ultra Aluma-Lite™ features a composite plastic core bonded by two layers of aluminum to form an extremely durable product. Composite aluminum is an excellent alternative to traditional aluminum. It's light-weight (40% lighter than solid aluminum), Eco-friendly, and UL-recognized for "electrical signage" (UL94-VO).

### Key Features

- Corrosion and impact resistant
- Ideal for use with Ultra-Cling™
- Stain and scratch resistant
- Service temperature: -40° to 170°F

### Applications

- Industrial environments
- Manufacturing
- Warehouse & Fulfillment Centers
- Construction

**10 YEARS  
DURABILITY**

# CUSTOMIZE IT!

## How To Plan Your Custom KPI Board

Our team of KPI board experts is here to guide you through every step of the design process—from ideation to installation. To help you prepare, here are key features to consider when planning your custom board. Thinking through these details upfront ensures your final product is tailored perfectly to your goals, team, and workflow.

### KPI Selection

- Limit to 5–10 metrics max (avoid clutter; dry-erase space is finite)
- Prioritize metrics needing frequent updates (e.g., daily/weekly)

### Physical Design & Layout

- Zoning: Divide the board into clear sections (e.g., Sales, Ops, Customer)
- Legibility: Use large, bold fonts and color-coded markers
- Templates: Pre-print grids, tables, or progress bars for consistency
- Headers: Label each KPI clearly

### Data Tracking & Updates

- Manual Entry: Assign a “KPI owner” to update values (daily/weekly)
- Source Data: Pull numbers from spreadsheets, CRM printouts, or ERP reports
- Change Tracking: Use sticky notes or magnets to highlight variances

### Visual Tools for Clarity

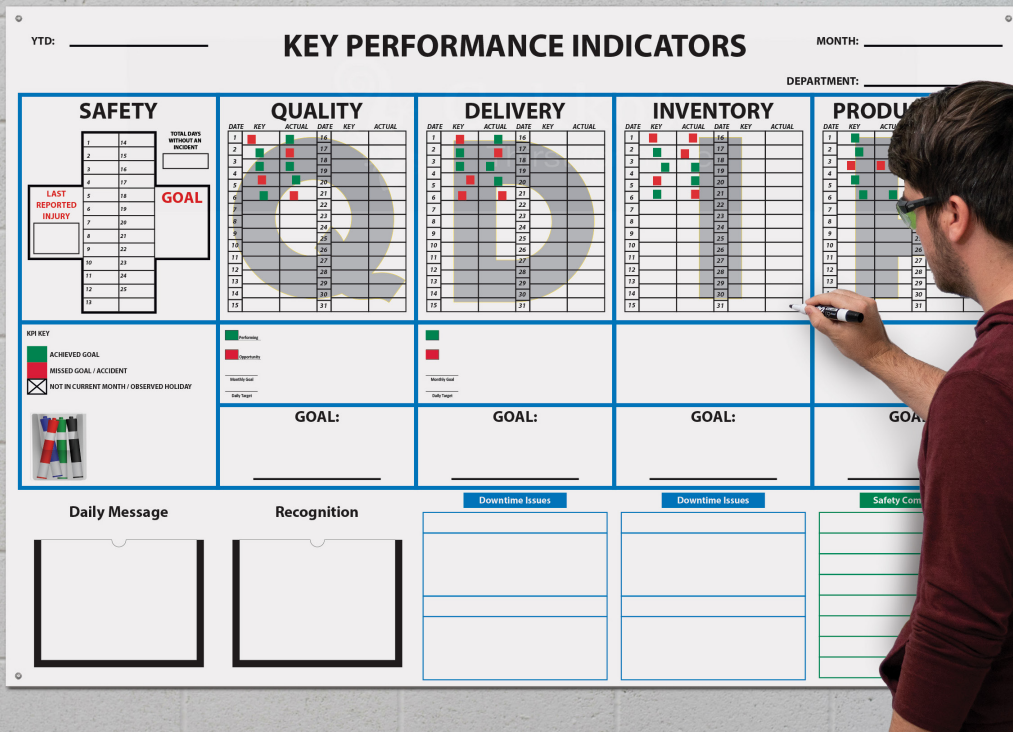

- Progress Bars: Draw with markers to show % to goal
- Traffic Lights: Color-code performance (red/yellow/green)
- Trend Arrows: Show improvement/decline vs. last period
- Magnetic/Sticky Notes: Add comments or action items

### Engagement & Interaction

- Callout Sections: Leave space for team notes
- Rewards Tracking: Add a “Win of the Week” section for morale
- Manual Gantt Charts: Track project timelines

**Unlimited choices for branding, size, color and more! Call us today!**

## SQDIP & SQCIP KPI-Boards

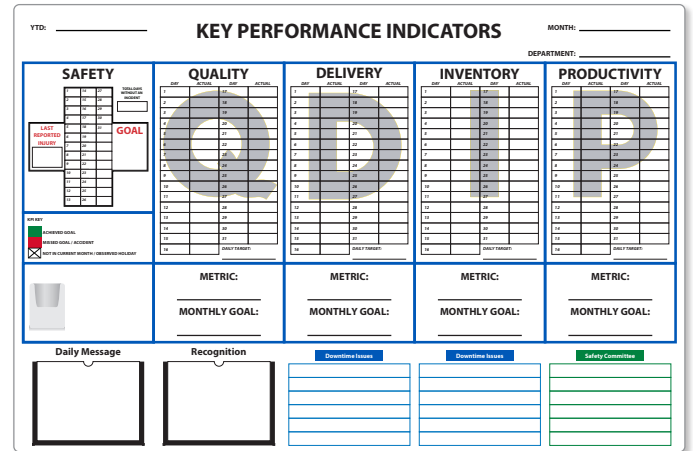

Dry-erase SQDIP (Safety, Quality, Delivery, Inventory, and Productivity) & SQCIP (Safety, Quality, Cost, Inventory, and Productivity) KPI-Boards are an effective tool for monitoring and improving the safety, quality, delivery, cost, inventory and productivity of your organization in real time.

### Key Features

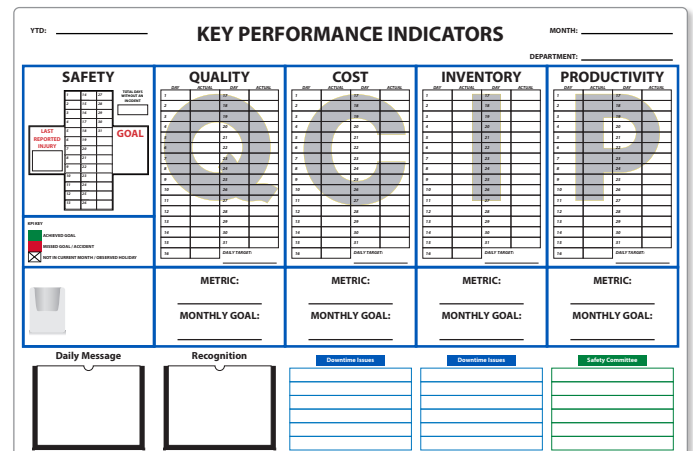

- Dry-erase boards available in 2 different designs, SQDIP & SQCIP
- Includes 2 landscape-style document holders: 8 1/2"H x 11"W
- Includes 1 Dry-erase marker and eraser holder: 4 3/4"H x 3 5/8"W x 2"D
- Board dimensions: 48"H x 72"W, made of Ultra Aluma-Lite™
- Ideal for use with Ultra-Cling™ markings to visibly provide metrics, track progress, and indicate goals

### Benefits

- Increases accountability by tracking progress towards expectations
- Improves visibility on performance in real-time
- Drives focus, prioritizing the most important metrics and goals
- Facilitates communication between team members
- Visually creates a clear picture of team status

## Cause & Effect KPI-Boards

Cause & Effect Fishbone KPI-Boards help identify the root causes of a problem.

### Key Features

- Dry-erase KPI-Boards available in 2 different designs
- Board dimensions: 32"H x 48"W, made of Ultra Aluma-Lite™
- Includes 1 Dry-erase marker and eraser holder: 4 3/4"H x 3 3/8"W x 2"D
- Use with Dry-erase markers to visibly provide metrics and indicate goals

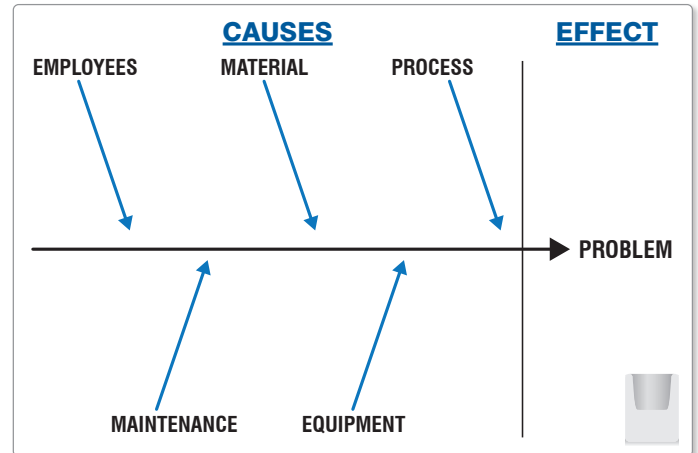

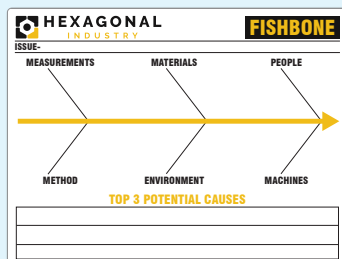

### Benefits

- Clearly define problems or issues that need to be addressed
- Brainstorm, identify and categorize potential causes
- Determine which causes are most likely to be at the root cause of a problem
- Develop and prioritize solutions to address the identified causes
- Implement and monitor the solutions to ensure they are effective

## Chain of Events KPI-Boards

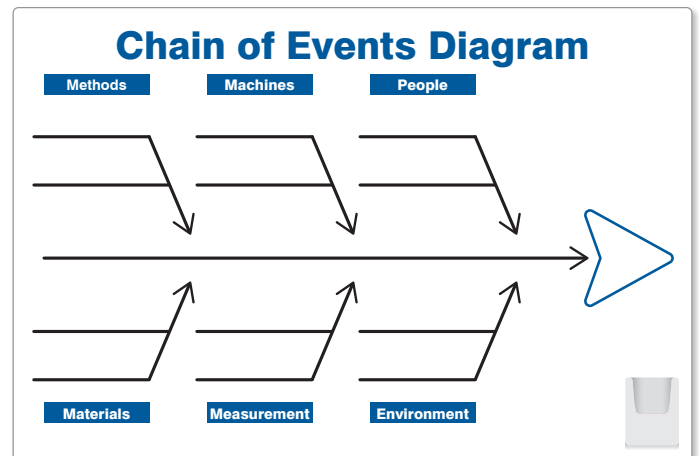

Chain of Events KPI-Boards focus on understanding the sequence of events leading to particular outcomes.

### Key Features

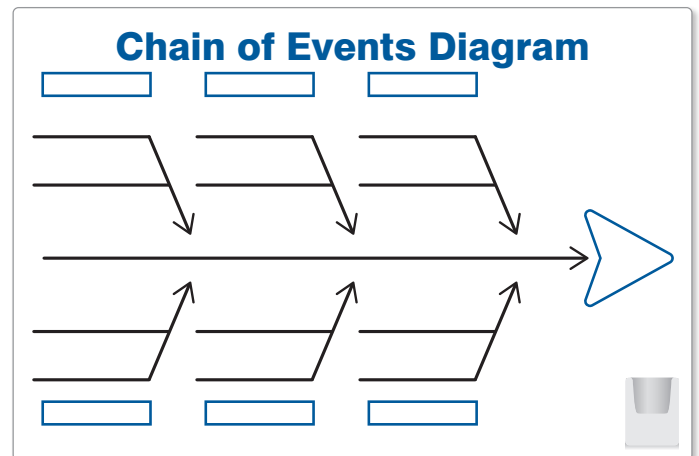

- Dry-erase boards available in 2 different designs
- Board dimensions: 32"H x 48"W made of Ultra Aluma-Lite™
- Includes 1 Dry-erase marker and eraser holder: 4 ¾"H x 3 ⅝"W x 2"D
- Use with Dry-erase markers to visibly provide metrics and indicate goals

### Benefits

- Identifies potential hazards in a system or process
- Helps improve risk management by providing a visual representation of factors contributing to a particular outcome
- Provides a clear picture allowing for better decision making
- Improves safety by identifying factors that could lead to hazardous conditions

## KPI Accessories

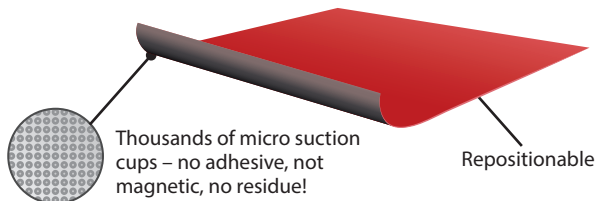

### ULTRA-CLING™ Document Holders

Ultra-Cling™ is an advanced repositionable self-adhesive material that possesses thousands of micro suction cups that grip to most clean flat surfaces. It can be applied, repositioned, and removed repeatedly. Easily clean bottom surface with damp cloth or mild soap to restore grip.

- Ideal for use with KPI Boards, and Message Boards
- Excellent for short-term, indoor use
- Mix and match styles and colors
- Sold in packs of 10

DTH217

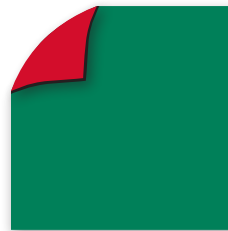

Thousands of micro suction cups – no adhesive, not magnetic, no residue!

Repositionable

### Indicator Magnets

Keep your workspace organized, visible, and efficient with these versatile double-sided red/green indicator magnets. Perfect for visual management, these reusable magnets feature a write-on/wipe-off surface (compatible with dry-erase markers), ideal for tracking status, workflows, or safety checks. Flip between green (go/approved) and red (stop/attention) to communicate quickly, helping teams stay aligned and productive.

- Double-sided green and red design
- Dry-erase write-on/wipe-off surface
- Long-lasting magnets for continuous use
- Multiple sizes available
- 25/Pack

# RAMS Board

## Communication Centers

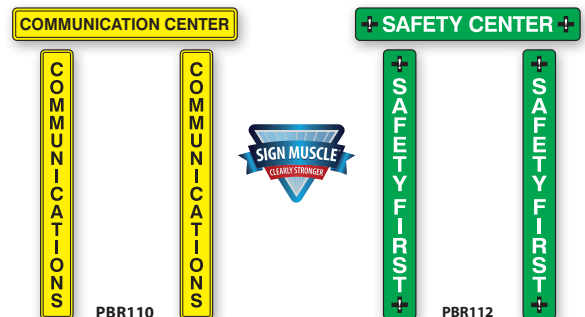

### Centralize Safety & Documents with a Durable, All-Weather Display Board

Keep critical documents, safety info, and notices organized in one highly visible, weatherproof location. Made from UV-stable, recyclable HDPE plastic, this heavy-duty board is built to last, easy to clean, reusable, and resistant to harsh conditions. Assemble it in 30 minutes with included accessories, and customize the layout to fit your needs. Use it free-standing (with water or bolt-weighted legs for stability), or wall-mounted for flexible placement. Ideal for job sites, warehouses, and facilities, this rugged, adaptable display solution keeps safety front and center!

- 88"H x 73.6"W x 39.37"D, 127.31 lbs
- 6x A4 transparent pockets (holds 100 sheets each)
- 60"W storage tray for easy access
- Magnetic whiteboard (18"x27") for notes & reminders
- "Safety Responsibility" mirror (11" x 8") for accountability

# SIGN MUSCLE®

## Protect What Matters Most

When it comes to safety identification, durability isn't optional—it's essential. That's why our Sign Muscle® formulation is engineered to withstand the harshest environments. Developed over a decade ago, this scientifically advanced liquid laminate shields your identification products from virtually any hazard, ensuring they're ready to perform when it matters most.

### **Built for Strength. Guaranteed for Resilience.**

A sign that lasts starts with a foundation of superior quality materials. Unlike untested competitor offerings, our plastic base materials are industry-proven to ensure reliability and durability. Choosing the wrong base material can compromise the clarity and longevity of life-saving safety messages—messages that guide workers to safety and can't afford to fade or deteriorate over time.

### **Science-Driven Quality. Trusted Longevity.**

Our commitment to excellence doesn't stop at the base material. Each sign is created with scientifically engineered ink sets, meticulously formulated for adhesion and performance on the specific materials we use. This level of precision ensures long-lasting vibrancy and resistance to fading, delivering a difference backed by science and verified through years of proven success.
