EPIDEMIC PROPORTIONS

800+ COVID-19 SAFETY IDENTIFICATION SOLUTIONS

IDENTIFICATION RESOURCES FOR A SAFE WORKFORCE

Protection

As your business begins operating during a pandemic, protecting the health and safety of workers, visitors, and customers is essential. Getting back to work is demanding a new level of commitment to safety. A lack of dedication and planning can result in a surge of failures as employers attempt to address the challenges of COVID-19.

Policies

Developing and implementing new health and safety policies to mitigate any rebounds or outbreaks when returning to work is essential now more than ever.

Identification

Convey the policies to be at the forefront of Sign, Label, and Tag products to identify the importance of safe and healthy practices around the COVID-19 pandemic. Proper and consistent directions and instructions empower visitors and employees to adapt to new policies, such as proper hygiene and social distancing.

Resource

Inside this COVID-19 Identification Book, you'll find over 800 safety identification resources to help you navigate the new health and safety signs you may need to adhere to state and local guidelines.

We're here to help you and stand with you as you promote a safe and healthy environment.

Coronavirus Disease 2019 (COVID-19) is a respiratory disease caused by the SARS-CoV-2 virus. It has spread from China to many other countries around the world. Depending on the severity of COVID-19's global impacts, outbreak conditions—including those rising to the level of a pandemic—can affect all aspects of daily life, including travel, trade, tourism, food supplies, and financial markets.

Materials

To provide a solution for your exact needs, we offer a comprehensive selection of materials designed to meet virtually every application and environmental demand from the parking lot to aisle ways, we've got you covered.

Signs

Adhesive Vinyl – Flexible vinyl with printed surface. Mount with permanent acrylic adhesive back with peel off liner. Ideal for indoor and protected outdoor placement.

Plastic – Printed surface has clear UV Duck Armor™ protective overcoat. 50% recycled content plastic has UV inhibitors. Rounded corners with mounting holes. Ideal for indoor and sheltered outdoor locations.

Aluminum – Rigid metal strength, without rust. Print is protected by UV Duck Armor™ overcoat to withstand washdown, abrasion, and chemical splash. Rounded corners with mounting holes. Durable for tough indoors and harsh outdoor environments.

Reflective Aluminum – Engineer-grade prismatic reflective thick aluminum provides added visibility in lowlight conditions. Image has clear overcoat protection by Duck Armor™. Rounded corners with center post-mount holes. Durable for outdoor location placement.

Counter Top Plastic – Rigid plastic sign has base bent at an angle to stand upright by itself on countertop, reception desk, or other areas to be readily seen and understood.

Dura-Plastic – High durability plastic with high-impact resistance for outdoor applications and tough environments. Image is clear-coat protected by Duck Armor™. Rounded corners with mounting holes.

Magnetic – Flexible magnetic vinyl can place, lift, and replace on most steel or ferrous metal.

SignPad – Thin-mil poly plastic signs together, pull off pad to use. Ideal to temporarily set out for placement.

Rope Sign – Plastic sign with cutout to loop barrier rope through to hang.

Lite-Corrugate Plastic – Light duty plastic with a fluted core. Ideal for attaching to any location or set out into ground with step-stake (not included).

90D Projection Sign – Durable thick plastic with a flange edge and mounting holes. 90D signs project from the wall at 90 degrees and can be viewed from either side, easily mounted with Tapes and Screws, not included

Floor Marking

Slip-Gard™ Floor Sign – Made of dual-layer tough construction. The underlayer is adhesive vinyl, and the sign is subsurface print. Non-slip, pebble-textured has an over-laminate top surface to provide added durability, protecting the graphics and message from heavy pedestrian traffic. Strong, permanent acrylic adhesive underside has a peel-off liner and adheres firmly to smooth, clean, dry surfaces.

Stand-Up Floor Signs

Fold-Ups® – High-impact plastic panels stand upright with bold message and symbol on both sides. Quick, easy set-up, transport with cut-out top handle, and folds flat for storage.

Triple-Sided Fold-Ups® – Lightweight corrugated plastic stand-up floor sign has printed messages on three sides. Set up and secure with insert tabs. Store flat when not in use.

Tags & Tapes

Safety Tags:

PF-Cardstock is thin-mil poly-flexible plastic with a top hole.

RP-Plastic is a durable, flexible plastic with a metal grommet top hole.

Tags By-The-Roll – End-to-end quantity of thin-mil poly tags connected, spooled, and stored within a handy portable box. Pull tag out to dispense out, tear at perforations to use.

Bottle Tags – PF-Cardstock is thin-mil, poly-flexible plastic with adjustable top hole to fit over top of bottle.

Barricade Tapes – Lightweight, thin poly plastic non-adhesive tape is durable for inside and outside use. Message is repeated continuously along the length of the tape roll. Easily cut and secure with adhesive tape, nail, staples, or tie-off.

Labels

Hard Hat Stickers – Stickers are flexible to conform to the hard hat curvature – or adhere to machinery, toolboxes, or other equipment.

Adhesive Vinyl – Flexible vinyl with printed surface and a permanent acrylic adhesive back with peel-off liner.

Cling-Tite – Clear static poly, adheres to surface, yet can peel off to remove, and replace.

Paper Labels – Printed surface on flexible paper stock with adhesive back with peel-off liner.

Badges – Poly-gloss, printed plastic card with slot hole top. Clip included.

Posters & Banners

Coated Paper Poster – Print on semi-gloss finish on coated side of heavy stock that is sturdier than writing paper. Uncoated backside allows mounting with adhesive.

Laminated Plastic Poster – Printed poster is laminated on both sides with clear laminate for added durability. Protective surface is cleanable with easy wipe off.

Poly Banner – Durable, reinforced, flexible poly with finished edges and metal grommets for mounting.

Mesh Banner – Poly-mesh texture is porous for wind-resistance to allow flow through the air. Tight mesh pattern provides visibility of printed surface. Has finished edges with metal grommets for mounting.

Duck Armor™ Liquid Laminate

Duck Armor™ is powerful enough to survive in any environment. Pioneered by Accuform® more than a decade ago, our **scientifically strong liquid laminate** coating sleeps with one eye open to protect over 90,000 identification product SKUs for superior protection against harsh chemicals, abuse, and graffiti without added cost.

Visit Accuform.com/DuckArmor to Learn More and See the Duck in Action!

Look for the  identifying products protected with Duck Armor™.

PERSONALIZE IT!

Customizing your safety signage keeps your company top of mind with your employees and customers while reinforcing your commitment to safety.

Whether you need a custom message, a personalized design with original imagery and logos, or require a unique shape or size, our “Yes, We Can!” approach will shine through when we create the right sign, label, tag, or floor marking solution for you.

Custom Safety Identification:

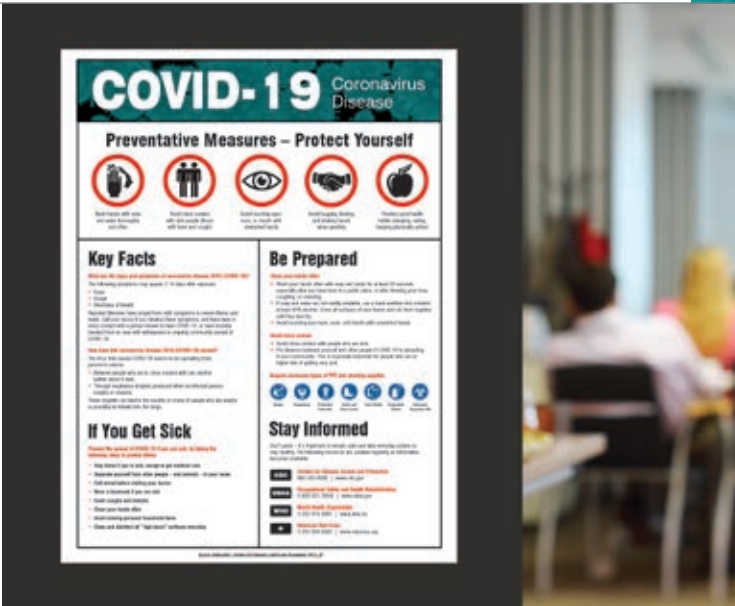

- No Set-Up Fees
- Unlimited Design Options
- No Minimums
- Language Translations Available

Contact us at customerservice@accuform.com or call 1-800-237-1001 for more information, to request quote, and for translation requirements.

Preventative Posters

Keep employees and customers informed about health and safety precautions with eye-catching informational posters. Hang posters on walls in key locations to provide as a regular reminder and reference.

Signs

Encourage and provide awareness to social and physical distance to prevent the spread of germs, viruses, diseases, flu, and Coronavirus COVID-19.

Social distancing means to remain away from congregating settings, avoid mass gatherings, and maintain distance approximately 6 feet or 2 meters from others when possible.

Install signs from the entrance areas to throughout as reminders at workplaces, offices, industrial facilities, retail locations, commercial establishments including restaurants, grocery stores, other places of business to remind of social distancing.

To order, add material code after part number. More sign materials are available at Accuform.com.

LED Projection Floor Signs

When standard safety signs don't work in challenging environments - social distancing LED Sign Projectors are the ideal solution you need.

Heavy-duty cast aluminum projector contains a CREE high-powered LED chip with 3-ft, plug-in 110 VAC power cord. Includes remote control, up to 32-ft away, for on/off operation plus rotation or still for sign image. Viewing distance by light level: complete dark - 262-ft.; dim light - 65-164-ft.; bright light - 49-ft. *For indoor use only.

Directional Signs

Post the specific direction to head down aisles, lanes, and hallway to remind practice social distancing. Install on wall or shelves at entry points and intervals to direct proper direction. The sign stands out to be viewed from either side – correct direction one side, and the reverse side states the incorrect path.

BLOCKADE Retractable Belt Tape Post Barriers

Connect belt tape in combination with posts to control and direct the flow of pedestrian traffic for social distancing purposes. Set posts out and extend the belt tape to locate where to stand and move in areas where lines and queues occur. Install at the entry point and throughout to direct the pedestrian traffic.

2" woven polyester tape is wound in self-tension spring-loaded unit. Retracts smoothly and safely into the head unit for storage.

The post is 2 1/2" diameter x 38"H with a 14" diameter weighted base.

Accu-Shield™ DP-X Mobile Partition Panels

When workers are unable to practice social distancing, ensure they have a mobile partition shield to prevent the spread of viruses like COVID-19

Divider partition panels can section a work area in industrial, office, and commercial settings while maintaining unobstructed views. Roll panel on included swivel casters* to location. Constructed of a lightweight, industrial-grade aluminum frame with an optically clear, impact-resistant plastic panel.

* 24" leg supports 12" on each side.

Accu-Shield™ SG Clear Barrier Panels

Provide sneeze guard style protection throughout work areas in offices, warehouses, and commercial settings with unobstructed views while safeguarding workers, customers, and visitors against the spread of germs and viruses.

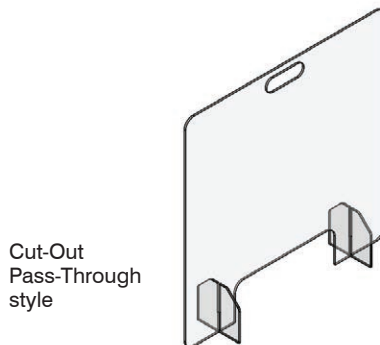

Set up Barrier Panels easily, to keep in place or move to other work areas, or store flat when not in use. A thick clear shield is a high-impact thermoplastic that is chemical-resistant to many cleaners.

Disposable Face Shield

Disposable, full-size face shield protects from dust, splashes, and sprays. Optically clear 14"W x 8"H x .020" shield provides peripheral visibility. One size fits most with plastic headband strap with adjustable rear hook & loop fastener to fit head circumference 17" – 26". For general-purpose non-sterile use. Shield also flips up and down with side aluminum rivets.

SIZE	NO.	UNIT
14"W x 8"H	LHB642	50 per Box

Clip-On Disposable Face Shield

Wear a light-duty face shield with the comfort of a baseball cap, bump cap, or protective hard hat to prevent the spread of germs and viruses, while reducing the chance of catching or causing cross-contamination and blocking light dust, dirt, mists, and sprays. This general-purpose, disposable face shield attaches to the cap's or hat's brim or visor with ease for both comfort and versatility.

SIZE	NO.	UNIT
10 1/2"W x 8"H	LHB640	50 per Box

Face Mask Straps Clip

Get relief from the mask strings on the ears that cause irritations, redness, abrasions, and blisters. A semi-flexible clip rests on the back of the head. Place mask strings onto the clip instead of the ears. Loop the mask strings onto the clip's multiple notches for an adjustable fit.

Plastic is sturdy, wear- and chemical-resistant that is easy to clean for reuse. Compact size, 1 1/2"H x 6 1/8"W x .035" thick.

SIZE	NO.	UNIT
1 1/2"H x 6 1/8"W	LHB630	Pkg. of 10

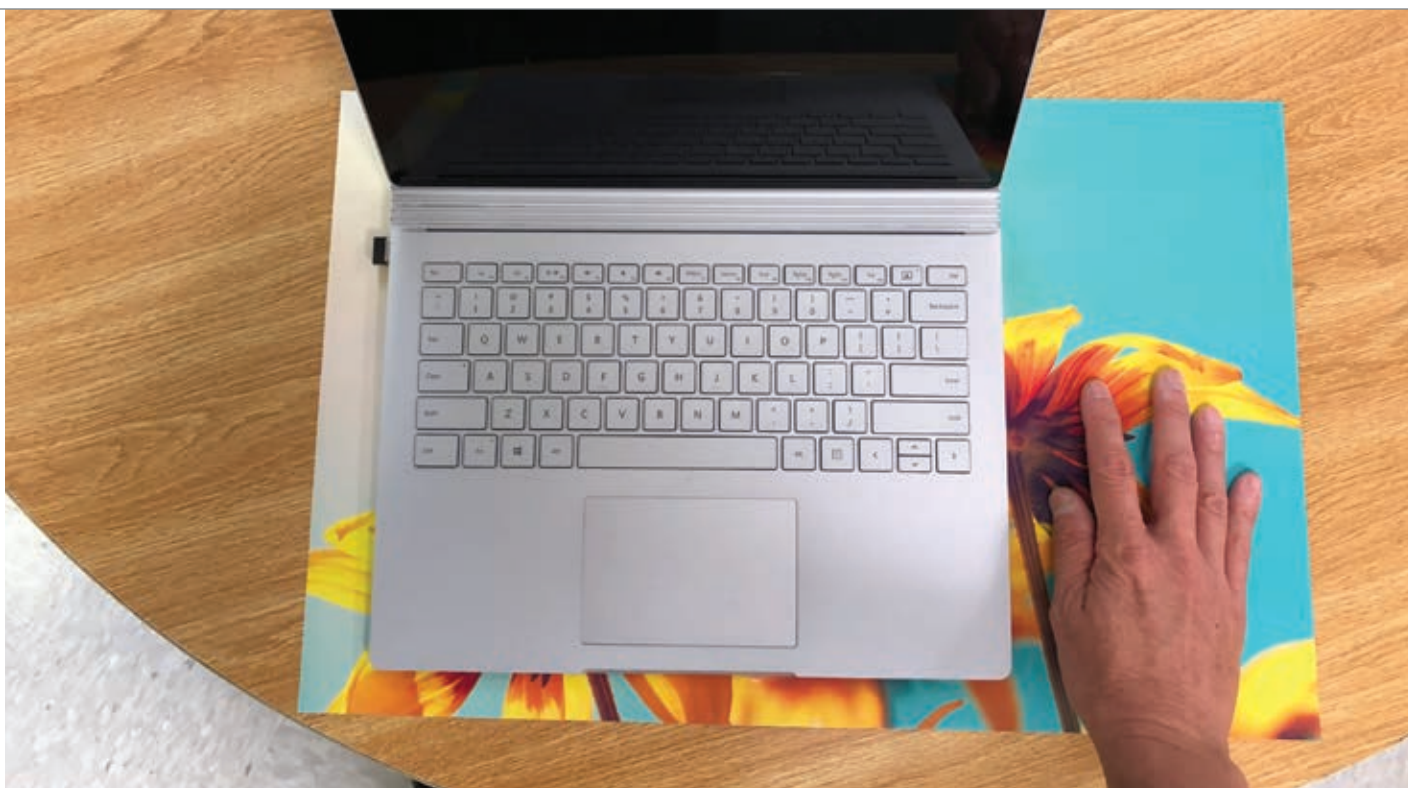

Table-Gard™ Disposable Work Mats

Get protection from germs, dirt, and chemical residue that may be on work table surfaces not regularly cleaned. Turn shared work surfaces - such as conference tables, counters, desktops, coffee shop, and restaurant tables – to be safe, clean workspaces with this stick-down mat.

Before setting out work materials, place the mat for a clean, sanitary, and germ-free surface.

Smooth, thin plastic film is 12.5" x 19.5" for work area large enough for laptops, and folios. Waterproof and tear-resistant with a peel-off adhesive backside that allows for reposition lift-off and lay back down.

Easy peel-off back liner tabs
