

SAFETY PROJECTORS

Ditch the Tape
Skip the Paint
Illuminate

Sign Projector

Impervious to wear and tear of facility traffic

LED Line Projector

Ditch the Tape, Skip the Paint

Heavy Duty Sign Projector

Withstands dusty and higher temp environments

Laser Line Projector

Safety and organization with precision

LED Sign Projector

- Maintenance-free
- Clear markings onto any surface
- Plug-and-play setup
- Safety communication tool.

This high-visibility safety projector delivers attention-grabbing messages that won't fade, peel, or wear away under constant facility traffic. Using durable LED or laser technology, it projects clear safety messages onto floors or walls to define aisles, crosswalks, and hazard zones—providing a reliable alternative to floor tape and painted markings. Designed for flexibility, the projector can be easily repositioned as layouts, workflows, or safety needs change.

Laser Line Projector

Precision laser technology creates crisp, high-contrast lines for long-distance aisle marking and traffic control. Ideal when accuracy, consistency, and superior visibility matter most.

- Projects sharp, high-contrast lines on any surface
- Long line lengths with the highest installation range
- Low power draw with long illumination lifespan

Available colors:

LED Line Projector

A durable, bulb-based solution for projecting wide, highly visible lines at lower mounting heights. Perfect for replacing floor tape in work zones, staging areas, and equipment boundaries.

- Wide projected lines for clear zone definition
- Long-lasting bulb with minimal maintenance
- IP65 rated for dust and moisture resistance

Available colors:

Heavy Duty Sign Projector

Withstands dusty and higher temp environments

- 100, 200 and 300-Watt bulb options
- 15ft - 45ft Installation height range (100W option limited to 35ft)
- 4ft - 10ft Radius dimension range
- -40°F to 140°F Temperature range
- Up to 40,000 Hour bulb lifespan
- 110 - 277VAC - IP65 Rated
